1 July 1950

25X1A

MEMORANDUM TO: Chief,

SUBJECT: Personnel Requirements for Mobilization

1. In the event of a general mobilization as a result of the Far East war, it is necessary to have already available for planning purposes the estimated expansions in Staffs and Divisions to meet such an emergency. As realistically as possible you are requested to visualize the expansion necessary to do your job in the event of war with the UTR. Your figures should represent the increase necessary and practicable through 31 December 1950. Other planning will take care of longer-range increases.
2. Your estimates should be submitted in the form indicated in the attachment. From these figures this office should be able to make reasonable estimates regarding budget, supply, space, training, service, etc.
3. Categories of personnel are very general as indicated in the attachment. Detailed breakdowns by grade and title are not practical for planning purposes. Do not differentiate between civilian or military. It is contemplated that the recruiting for this increase will bring in a certain percentage of trained personnel. This will be considered in figuring training loads.
4. These will be returned to the Office of the Executive Secretary not later than 1200 hours 5 July 1950.

FOR THE ASSISTANT DIRECTOR FOR SPECIAL OPERATIONS:

25X1A

 Acting Executive Secretary

Attachment - 1
